The Elements of Debating

By LEVERETT S. LYON

A high-school manual, giving detailed instruction in the art of debating. The planning and composition of an argument are discussed at length, and noteworthy examples are quoted and analyzed. A bibliography leads the way to a wider study of the subject, and a list of suggested topics will prove useful in the arranging of debates.

The book has been adopted by schools in many states and has already gone to three editions.

PANAMA AND THE CANAL

By

Albert B. Hall and Clarence L. Chester

NEW ENLARGED EDITION

Nicely bound in cloth — Gold stamping —

Illustrated jacket

Each one should be brought to realize the almost insurmountable obstacles that have had to be overcome, so that each will take patriotic pride in the work and its final accomplishment.

All this in good, graphic English, lavishly but judiciously supplemented by maps and illustrations, is given in
